Following publication of the original article [1], the authors identified that Fig. 3 appears identical with Fig. 4. In fact, the Fig. 3 has never been changed from the original submitted manuscript to the revision and proof process. The order and legend of Fig. 3 were also not changed in the submission and revision. The loss of Fig. 3 was due to the careless manipulation during the typesetting process. The correct Fig. 3 is provided below:

The correction does not have any effect on the results or conclusions of the paper. The original article has been corrected.
